

DATBLYGIAD II Y TAI NEUADD HALL-HOUSE DEVELOPMENT II

Datblygodd llawer o dai neuadd gwerinol yn dai hir lle'r oedd cyntedd a simnai fawr yn gwahanu'r ty a'r beudy. Mae'r lluniau yn dangos Nannerth-ganol (Llansanffraid Cwmteuddwr) a godwyd o goed a gwmpwyd ym 1555 ac a addaswyd tua 1580 drwy gynnwys lle tân sylweddol ynddo. Mae'r ffotograff yn dangos Nannerth-ganol fel y mae ef heddiw.

Many peasant hall-houses developed into long-houses in which house and cowhouse were separated by a passage and great chimney. The cutaway drawing shows Nannerth-ganol (Cwmteuddwr) built from timber felled in 1555 and modified with a substantial fireplace about 1580. The photograph shows Nannerth-ganol as is today.
