Archaeological data, from the Regional Historic Environment Record, supplied by The Clwyd-Powys Archaeological Trust in partnership with Local Authorities, Cadw and the partners of ENDEX CPAT, 2014.

Please note that the sites listed above are only the sites of which we are aware at the current time and there may be others that have yet to be discovered or recorded.

While the Regional Historic Environment Record contains information on all of the following, we do not hold the definitive data set for Listed Buildings, Scheduled Ancient Monuments, Registered Parks and Gardens or Registered Historic Landscapes, and it is recommended that you contact Cadw to ensure you have the most up to date data for these monuments - particularly if you require digital polygons showing the full extents of Registered or Scheduled areas. Similarly, there may also be additional sites in the area in the National Monuments Record of Wales, held by the Royal Commission on the Ancient and Historical Monuments of Wales, and again you are advised to contact them directly to obtain such information.

If your enquiry relates to a commercial development, and if you haven't already done so, please contact Mr Mark Walters (markwalters@cpat.org.uk), the Development Control Archaeologist for Clwyd and Powys who will provide further advice regarding best practice in mitigating against damage to any archaeological or historical remains which might exist within the area of the proposed works.

Enquirers are also expected to provide a copy (paper or digital) of any document or published report that makes use of information obtained from the HER for incorporation into the record.

Enquirers are requested to include the following acknowledgement in any document or published report that makes use of information obtained from the HER: - *Information obtained from the Regional Historic Environment Record curated by the Clwyd-Powys Archaeological Trust.*
